I. УЧЕБНО-МЕТОДИЧЕСКОЕ ОБЕСПЕЧЕНИЕ САМОСТОЯТЕЛЬНОЙ РАБОТЫ ОБУЧАЮЩИХСЯ

Учебно-методическое обеспечение самостоятельной работы обучающихся по дисциплине «Иностранный язык» представлено в Приложении 1 и включает в себя:

- план-график выполнения самостоятельной работы по дисциплине, в том числе примерные нормы времени на выполнение по каждому заданию;
- характеристика заданий для самостоятельной работы обучающихся и методические рекомендации по их выполнению;
- требования к представлению и оформлению результатов самостоятельной работы;
 - критерии оценки выполнения самостоятельной работы.

Общая трудоёмкость самостоятельной работы студента составляет 288 часов, 135 часов — трудоёмкость контактной работы в целом, из них 81 час аудиторной работы.

Основная задача КСР — ликвидация пробелов в знаниях, а также устранение проблемных мест в процессе обучения, что дает возможность студенту, используя материалы лекций, семинаров, методические указания и пособия, самостоятельно эффективно изучать учебную дисциплину и выполнять все контрольные мероприятия.

Аудиторная КСР студентов — управляемая самостоятельная работа студентов, организуемая в аудитории под контролем преподавателя в соответствии с расписанием. Она направлена на углубление и закрепление

знаний, развитие навыков анализа и обобщения по проблематике соответствующей дисциплины.

В ходе выполнения студентами аудиторной КСР преподаватель направляет их деятельность в нужное русло, т.е. создает такие условия, которые помогают студенту определить, какие ему нужны знания и зачем, каким способом их можно приобрести, чтобы активным самостоятельным трудом, избирая по совету преподавателя более короткий и эффективный путь, добиться своей цели.

Помощь преподавателя выражается в том, что он создает мотивационный настрой, подготавливает учебно-методическое обеспечение, осуществляет непосредственное руководство и управление самостоятельной работой каждого студента над учебным материалом, готовит и проводит контрольно-оценочные мероприятия.

Организационно-методическое содержание КСР-занятий включает в себя:

- 1) проведение входного контроля, позволяющего оценить уровень готовности студента к освоению дисциплины, разбор заданий и анализ ошибок, рекомендации к устранению пробелов (список учебно-методической литературы, выдача индивидуальных заданий с последующей проверкой);
- 2) ознакомление с основными источниками информации по дисциплине: печатными и электронными учебниками, учебными и методическими пособиями, электронными конспектами лекций, справочными изданиями, в том числе интернет-ресурсами;
- 3) разбор типовых вариантов домашних заданий, контрольных заданий, рубежных контролей и т.п.;
- 4) индивидуальную помощь в оформлении и решении текущих домашних заданий, контроль выполнения таких заданий, поощрение студентов, регулярно выполняющих текущие домашние задания;
- 5) проведение контрольных мероприятий; проведение собеседования по теоретическим вопросам контрольных мероприятий;
- 6) контроль усвоения теоретического материала путем проведения экспресс-опросов по конкретным темам, тестового контроля знаний, опроса студентов в форме игры «Что? Где? Когда?» и т.д.;
- 7) разбор ошибок, допущенных в ходе написания контрольной работы, рубежного контроля и т.п., проведение работы над ошибками, доработка контрольных мероприятий для получения минимального балла;
 - 8) переписывание контрольных работ и рубежных контролей;
 - 9) разбор типовых вопросов и задач, выносимых на экзамены;

- 10) выполнение индивидуальных заданий повышенного уровня сложности по выбору студента (по желанию) с возможностью начисления дополнительных баллов к рейтингу;
- 11) участие сильных студентов в проверке контрольных работ или домашних заданий (при этом преподаватель предупреждает студента, что работы будут им перепроверены и за ошибки при проверке последуют санкции), за успешное выполнение студенту должны начисляться дополнительные баллы и пр.

Основная задача организации КСР заключается в создании условий развития интеллектуальной инициативы и мышления студентов. Основным принципом организации КСР должен стать перевод всех студентов на работу с переходом от индивидуальную формального определенных заданий при пассивной роли студента к познавательной собственного формированием мнения при поставленных проблемных вопросов и задач. Цель КСР— научить студента осмысленно и самостоятельно работать сначала с учебным материалом, затем с научной информацией, заложить основы самоорганизации и самовоспитания с тем, чтобы привить умение в дальнейшем непрерывно повышать свою квалификацию. Решающая роль в организации КСР принадлежит преподавателю, который должен работать не со студентом «вообще», а с конкретной личностью, с ее сильными и слабыми сторонами, индивидуальными способностями и наклонностями. Задача преподавателя увидеть и развить лучшие качества студента как будущего специалиста высокой квалификации.

VI. МЕТОДИЧЕСКИЕ УКАЗАНИЯ ПО ОСВОЕНИЮ ДИСЦИПЛИНЫ

Структура изучения курса «Иностранный язык» является практикоориентированной. Основной формой работы при изучении иностранного языка являются практические занятия.

При организации учебной деятельности на практических занятиях широко используются как традиционные, так и современные электронные носители информации, а также возможности информационных и коммуникационных образовательных технологий.

Использование современных образовательных технологий позволяет учитывать уровень учебной готовности каждого обучающегося, предвидеть трудности, которые могут возникнуть при выполнении аудиторной и внеаудиторной учебной деятельности, обеспечить возможность эффективного контроля и самоконтроля.

В системе подготовки студентов практические занятия позволяют приобретать и совершенствовать общекультурные компетенции. Цели практических занятий:

- создать условия для углубления и систематизации знаний по иностранному языку;
- научить студентов использовать иностранный язык для решения задач социально-бытового характера;
- формировать учебные компетенции и познавательную мотивацию, лежащие в основе самообразования, саморазвития и самоконтроля.

Практические занятия проводятся в учебной группе. Для выполнения разнообразных учебных задач создаются условия аутентичного речевого общения.

Работа с оригинальными текстами направлена на подготовку и проведение круглого стола, практического семинара. Для выполнения заданий ситуативного характера используются групповая и парная виды

работ. По изученным темам подготавливаются доклады, сообщения с презентациями.

Со стороны преподавателя студентам оказывается помощь в формировании навыков чтения иноязычных текстов, их анализа, правильной подготовки презентации; в овладении умениями писать сообщения личного и официально-делового характера.

Следует учитывать, что основной объем информации студент должен усвоить в ходе систематической самостоятельной работы с информацией на иностранном языке, размещенной как на электронных, так и на традиционных носителях.

Целью работы с грамматикой является структурирование, систематизация и углубление знаний по иностранному языку и, на этой основе, развитие умений результативной работы с иноязычными текстами и формирование коммуникативной компетентности студентов.

Формами текущего контроля результатов работы студентов по дисциплине «Иностранный язык» являются письменные тесты, написание эссе, докладов, дискуссии по материалам изучаемых тем.

Итоговый контроль по дисциплине осуществляется в форме зачета в конце 1,2,3 семестров и экзамена в конце 4 семестра.

Характеристика заданий для самостоятельной работы обучающихся и методические рекомендации по их выполнению

Самостоятельная работа студентов является неотъемлемой частью образовательного процесса и рассматривается как организационная форма обучения. Целями СРС являются овладение фундаментальными знаниями, общекультурными, общепрофессиональными, профессиональными и специальными компетенциями, формирование у студентов способности и навыков непрерывного самообразования и профессионального совершенствования.

Самостоятельная работа по дисциплине «Иностранный язык» осуществляется в виде аудиторных и внеаудиторных форм познавательной деятельности. Самостоятельная работа студентов включает в себя:

- Подготовку к аудиторным практическим занятиям;
- Чтение дополнительной литературы;
- Составление плана и тезисов ответа;
- Выполнение переводов;
- Выполнение тестов;

- Компьютерное и Интернет тестирование;
- Подготовка устного сообщения;
- Подготовка докладов;
- Подготовка презентаций;
- Написание эссе;
- Подготовка к участию в деловой игре, конкурсе, творческом соревновании и многое другое.

Для студентов 1-2 курсов уровень владения английским языком измеряется следующим образом: A1-A2 – «удовлетворительно», B1 – «хорошо», B2 – «отлично». Соответствующие уровням критерии оценки для разных видов работ приведены в таблицах ниже. Различные виды самостоятельной работы студентов являются взаимно дополняющими, и часто один из видов является элементом другого, более масштабного. Поэтому ниже описаны основные формы работы, проясняющие все элементы самостоятельной подготовки. Текущая подготовка к лабораторным занятиям включает в основном работу над текстами уроков. Это самостоятельная отработка чтения, перевод текста, ответы на вопросы после текстов или ответом продумывание предполагаемых на возможные вопросы преподавателя. Заучивание лексических тренировка новых единиц, грамматических конструкций.

Далее представлены некоторые задания для самостоятельной работы обучающихся и методические рекомендации по их выполнению.

Методические указания к тестовым заданиям

Тесты воспринимаются студентами как своеобразная игра. Тем самым снимается целый ряд психологических проблем — страхов, стрессов, которые, к сожалению, характерны для обычных форм контроля знаний студентов.

Основное достоинство тестовой формы контроля — это простота и скорость, с которой осуществляется первая оценка уровня обученности по конкретной теме, позволяющая, к тому же, реально оценить готовность к итоговому контролю в иных формах и, в случае необходимости, откорректировать те или иные элементы темы.

Предлагаемые тестовые задания разработаны в соответствии с Программой по дисциплине «Иностранный язык». Данные тесты могут использоваться:

- студентами при подготовке к зачету в форме самопроверки знаний;
- преподавателями для проверки знаний в качестве формы промежуточного контроля;
- для проверки остаточных знаний студентов, изучивших данный курс.

Тестовые задания рассчитаны на самостоятельную работу без использования вспомогательных материалов. То есть при их выполнении не следует пользоваться текстами законов, учебниками, литературой и т.д.

Для выполнения тестового задания, прежде всего, следует внимательно прочитать поставленный вопрос. После ознакомления с вопросом следует приступать к прочтению предлагаемых вариантов ответа. Необходимо прочитать все варианты и в качестве ответа следует выбрать лишь один индекс (цифровое обозначение), соответствующий правильному ответу. Тесты составлены таким образом, что в каждом из них правильным является лишь один из вариантов. Выбор должен быть сделан в пользу наиболее правильного ответа.

На выполнение теста отводится ограниченное время. Оно может варьироваться в зависимости от уровня тестируемых, сложности и объема теста. Как правило, время выполнения тестового задания определяется из расчета 30-45 секунд на один вопрос.

Критерии тестов оценки выполненных студентами ΜΟΓΥΤ определяться автоматически, если осуществляются на электронных платформах, либо определяются (закладываются) преподавателем самостоятельно. Наиболее распространены следующие критерии оценки: 90% - 100% правильных ответов – «отлично»; 75% - 89% правильных 74% 61% «хорошо»; ответов правильных ответов 60% «удовлетворительно»; менее правильных ответов «неудовлетворительно». Студенту при подведении итогов по тесту и в целях самоанализа рекомендуется проанализировать допущенные ошибки и дополнительно проработать определенные аспекты. Платформы LMS это позволяют.

THE STUDENT TIMES

The Student Times interviewed Diana Walker, the new senior class president. We asked her about her studies, her hobbies, and her plans for the coming year. Here's what she said.

Student Times: What are your favorite classes? And what classes don't you like?

Diana Walker: Well, I love history and Mr. Thompson's literature class. Everybody likes his classes, right? And classes I don't like? I guess that's physics— I'm terrible at physics.

ST: Do you have any hobbies?

DW: Yeah, I'm into nature, actually. I like to go hiking and bird-watching with my friends.

ST: What about music? Do you play a musical instrument? DW: Well, not really. I played the piano when I was a kid, but then I stopped. I enjoy listening to music, of course.

ST: Do you have any plans as class president? I mean, are you going to make any changes?

DW: Well, I'm just starting the job now, so I don't know yet. But this is going to be an interesting year. Why don't you come back and interview me again next month? I'll know better then.

1.	Diana Walker is interviewing the senior class president.	True	False	
2.	Diana Walker likes all of her classes.			
3.	Diana Walker doesn't play the piano now.			
4.	Diana Walker is planning to make a lot of changes.

Are You Getting Enough ?

0

Everybody sleeps, but many people don't get enough sleep for their health. In recent surveys, 60% of Americans reported problems with their sleep at least one or two nights a week. If you are having problems with your sleep, here are some things you can do.

- Exercise regularly. Regular exercise helps you sleep, but don't exercise right before you go to bed. Your body needs time to slow down.
- Don't read, study, or watch TV in bed. Think about your bed as a place just for sleeping. That way when you go to bed, you will probably fall asleep right away!
- Don't have coffee or tea after 7 p.m. And remember to be careful
 of soda, because many of them will keep you awake, too.
- Control eating late in the day. It's OK to have a light snack, but don't eat a big meal.
- If you feel stressed at bedtime, turn off the lights and listen to relaxing music for a while. Or just lie there and imagine you are in a quiet, peaceful place.

☐ Barbara likes to go jogging at night – around 9 p.m.	
☐ Ron doesn't drink coffee or tea after dinner.	
☐ At bedtime, Alicia turns off the light and tries to think about nic	e things.
☐ Jane usually gets home from work late and eats a big dinner.	
☐ Jerry often does his homework in bed.	
☐ Maria loves soda. She drinks it all day and night.	
☐ Jack exercises every afternoon.	
Pam has an early dinner and she usually doesn't eat after that.

I Hate Moving!

by Chris Steiner

D

b

It's getting harder for me to move these days. Why? I'm a pack rat. And I collect a lot of heavy things. For instance, I have lots of books. And I have records. Most of my friends gave away their records when CDs became more popular, but I didn't. Instead, I got theirs.

I remember my first move - from my parents' house to college. It was pretty easy. I packed my clothes, my stereo, and a few books into my car - that was it! However, my last move was a nightmare. It took me weeks to pack.

You see, I'm also not very organized. Other people pack related items into neat little boxes and label them carefully, but I don't. When I move, my boxes are all full of different stuff - some clothing, a golf ball, a book, and a bathroom towel, for example - so I can't find things for weeks.

I moved here six years ago, and I'll probably move again in a couple of years. Will my next move be easier? I doubt it. You can collect a lot of things in eight

2. Методические указания по чтению и переводу дополнительных текстов

Прежде чем приступить к чтению и переводу текста необходимо предварительно ознакомиться с пояснениями к тексту.

Затем нужно прочитать внимательно весь текст до конца, чтобы познакомиться с его содержанием. Читая текст, нужно отметить все трудные места, затем разбить текст на абзацы и внимательно по предложениям начать переводить его. Если в абзаце имеются сложные предложения, следует разобраться в каждом отдельно, связывая его затем с последующим.

Предложения следует анализировать так:

а) найти подлежащее и сказуемое; б) разбить все предложение на смысловые элементы; в) перевести дословно; г) не глядя на предложение, рассказать себе простыми словами основной смысл его, д) сделать окончательный перевод, строя русское предложение согласно правилам русского языка.

Переведя предложение, следует выписывать незнакомые слова и одновременно отыскивать в словаре значение, соответствующее данному контексту.

Часто при переводе можно встретить идиомы, которые на русский язык дословно не переводятся, поэтому перевод их надо делать, либо исходя из общего смысла данного предложения, либо прибегать к помощи специального словаря. Переведя все абзацы текста, следует его еще раз прочитать, чтобы установить, хорошо ли читается перевод, понятен ли его смысл, а также обработать встречающиеся шероховатости стиля.

There is something really unusual about hobbies and interests. They vary from person to person distinguishing one personality from the other. They also

bring different people together, taking the mind off the monotony that sets in with the daily routine. The best thing that can happen to you is to be able to live your hobby every day, making a living out of doing what gives you a sense of pleasure and satisfaction.

Did you know that there are so many millionaires in this world, who would never have achieved what they did, if there field of success was not their hobby! Let's take an example of an application that was created as a hobby, and is now a part of everyone's life - Facebook. Do I need to tell you the rewards Mark Zuckerberg has received because of his hobby?

Many of us let go of our interests and hobbies to meet the daily demands of life; don't do that. Life is about being happy, about being able to enjoy what you do, and trust me, there are many things that people enjoy doing!

Hobbies Related to Nature

Let us begin with the activities that remind us of our natural self - hobbies related to the nature in which we live! What makes this category special is that these activities can also contribute to the environmental issues that we are facing globally. Issues, like global warming, deforestation, animal conservation, etc., may be taken care of in our own little way. Have a look at the hobbies that can help you make the earth greener and healthier.

- **♦** Recycling
- **♦** Organic farming
- **♦** Composting
- ◆ Landscape gardening
- ♦ Hydroponic gardening
- → Making birdfeeders/birdhouses
- ◆ Creating art from used material
- ♦ Making recycled paper
- ◆ Animal care (volunteering at an animal shelter)

Hobbies Related to Sports and Adventure

Most people confine hobbies related to sports and adventure to men. I fail to agree. Adventure is something that every human seeks because it gives them a sense of thrill and achievement. There are various activities in this category, and each one is worth a try!

- ◆ Scuba diving
- **♦** River rafting
- **♦** Bungee jumping
- ◆ Skiing
- ◆ Trekking
- **♦** Ice skating
- **♦** Surfing
- ◆ Racing
- **♦** Gymnastics
- **♦** Hunting

TEXT 2

Creativity, to me, is another form of a true blessing! The ability to think and create something beautiful is a true art. If you have the creative spark in you, then there is nothing that can stop you from exploring your inner potential. Below is a list of hobbies that you would love to do!

- ◆ Cook foods in disguise (dishes that look something but are something else)
- **♦** Painting
- **♦** Graffiti art
- ◆ Creative writing

- ◆ Dancing/choreography
- ◆ Singing/composing music
- **♦** Sculpting
- ◆ Model building
- **♦** Interior decorating
- **♦** Jewelry-making

Hobbies Related to Computers and Technology

Almost half of the population today is tech savvy, using technology-based applications for doing half of the routine work, be it sending and receiving e-mails, educating yourself on various topics through search engines, or socializing through Facebook, Twitter, or Skype. Some of the most popular hobbies are those associated with the virtual world. The following are some examples.

- **♦** Computer games
- **♦** Video gaming
- ◆ Social networking
- ★ Keeping virtual pets
- **♦** Creating software
- ♦ Internet browsing
- **♦** Blogging
- ◆ Building computers and robots

Observational Hobbies

Being observant is a natural skill, and a true observer is the one that notices even the minute details without making it obvious to others. These hobbies teach us a lot of things including patience, perseverance, and appreciation. The world that we live in is a marvel in itself, the beauty of which we seldom notice due to our busy schedule. These hobbies will help you think beyond your usual sphere.

- **♦** Birdwatching
- **♦** Geocaching
- **♦** Photography
- **♦** Cloud watching
- **♦** Stargazing
- **♦** People watching
- ♦ Herping (looking for reptiles)
- **♦** Amateur meteorology
- **♦** Reading

Outdoor Hobbies

A hobby is something that we enjoy doing, something that relaxes our minds! While the best place to relax is home, there are many people, who define relaxing as something that is done outdoors. Below is a list of hobbies that tend to relax and refresh your mind and body in the midst of nature.

- **♦** Fishing
- **♦** Archery
- **♦** Boating
- **♦** Traveling
- **♦** Camping
- **♦** Kayaking
- **♦** Kart racing
- **♦** Golfing
- **♦** Swimming
- **♦** Skateboarding

Talking about outdoor hobbies reminds me of Ernest Hemingway and his love for fishing! Knowing the popular author and journalist that he was, he always took time out for outdoor fishing trips with his friends. He started fishing at the age of 3, and wrote many write ups, like Tuna Fishing in Spain, Trout Fishing All Across Europe: Spain Has the Best, Then Germany. His first novel published in 1952, The Old Man and the Sea, was also based on the life of an old fisherman.

Indoor Hobbies

Have you come across this situation at home, when your brother wants to play soccer on a Sunday morning but your sister wants to stay at home and play cards? For some people, the ultimate way to refresh their minds and relax, is not by doing something out in the open, but something within the coziness of the indoors. Like I said, not all of us are the same!

- **♦** Playing cards
- ♦ Tarot card reading
- ♦ Playing board games
- ♦ Watching movies
- **♦** Cubing
- **♦** Bowling
- **♦** Billiards
- ◆ Ping pong/table tennis
- **♦** Pottery

Why I Love New York

By Regis St Louis, Author

I've lived in NY since 2001, and I'm excited about how green the city has become in recent years. The Brooklyn Bridge Park in my neighborhood, the High Line, the Hudson River Park, the growing number of farmers markets around town, the new CitiBike program, Bloomberg's plant-a-million-trees campaign: New York is no longer 'the concrete jungle' of yesteryear. Culturally speaking, it's an exciting time to be in New York, with the arrival of new theaters, cultural centers and sporting arenas (Theatre for a New Audience, BRIC, Barclays Center). I also feel fortunate to be here during the Brooklyn renaissance, when there's so much creativity in the air.

Nexus of the Arts

The Met, the MoMA and the Guggenheim are just the beginning of a dizzying list of art-world icons. You'll find museums devoted to everything from fin de siècle Vienna to immigrant life in the Lowest East Side, and sprawling galleries filled with Japanese sculpture, postmodern American painting, Himalayan textiles and New York City lore. For a glimpse of current and future greats, delve into the cutting-edge galleries of Chelsea and the Lowest East Side, with their myriad exhibition spaces, and festive opening-night parties (usually Thursday night if you want to join in).

The Night Is Young

When the sun sinks slowly beyond the Hudson and luminous skyscrapers light up the night, New York transforms into one grand stage. Well-known actors take to the legendary theaters of Broadway as world-class soloists, dancers and musicians perform at venues large and small across town. Whether high culture or low, New York embraces it all: in-your-face rock shows at Williamsburg dives, lavish opera productions at the Lincoln Centrer, and everything in between. This is a city of experimental theater, improv comedy, indie cinema, ballet, poetry

readings, burlesque, world music, jazz and so much more. If you can dream it up, it's probably happening in NYC.

Urban Wanderers

With its compact size and streets packed with eye-candy of all sorts – architectural treasures, old-world cafes, atmospheric booksellers and curiosity shops – NYC is an urban wanderer's delight. Crossing continents is as easy as walking over a few avenues in this jumbled city of 200-plus nationalities. You can lose yourself in the crowds of Chinatown amid brightly painted Buddhist temples, steaming noodle shops and fragrant fishmongers, then stroll up to Nolita for enticing boutiques and coffee-tasting among the craft-minded scenesters. Every neighborhood offers a dramatically different version of New York City – from the 100-year-old Jewish delis of the Upper West Side to the meandering cobblestone lanes of Greenwich Village. And the best way to experience this city is to walk its streets.

Top 10 Places To Visit in Tokyo

I love Tokyo! I never thought I would say this, but after 10 days spent there, Tokyo became my favorite city in the world (over Paris!!). I always was a city girl, and though I love nature, I could never live too far, nor too long away from the concrete and electric jungle. And I'm afraid I will never again be able to stay away for too long from Tokyo - the most civilized and well-organized jungle of them all. The most famous of Tokyo's attractions can be reached by subway or train, and though huge and a bit intimidating at first, you will get anywhere in no time.

Tokyo was the first city we visited in Asia, and comparing it with all the other places we've visited before (and after), **Tokyo is a different world altogether**. If I were to recommend you only one city to visit in the world (given that you are not Japanese), I would recommend you Tokyo. You get the idea, I'm in love with this city! And this is not only because for me it represents the peak of civilization, law, order and fashion, it is also because from all the places I've visited so far, this is the one that stands out most, in all the good ways.

The following list of *places to visit in Tokyo* is based on our personal experience and organized in no particular order. Please feel free to add your favorite places in Tokyo in the comment section below.

THINGS TO DO & PLACES TO VISIT IN TOKYO

Shibuya 109 & Shibuya Crossing

Shibuya is the point zero of Japanese fashion and the Mecca of chic; and it fascinated me so much, I must be a Shibuya girl in a parallel universe or something. The way these girls dress, the contact lenses that make the eyes look bigger, all that lace, ruffles, colorful socks, and ribbons, make for the most elegant casual outfits I've ever seen. I get goose bumps every time I remember the time I spent shopping in the trendy boutiques at Shibuya 109. I left part of my heart there, and ever since I got back home all I want is to go back.

The Shibuya Crossing is a couple of minutes from Shibuya 109 and just outside Shibuya Station served by JR Yamanote Line. This crossing, made famous by the 'Lost in Translation' movie, is one of the busiest in the world and the quintessence of organized chaos. The traffic lights from all directions turn red all at the same time and for the next couple of minutes people invade the crossing like spilled beans out of a can.

You can observe the spectacle of lights and people from the Starbucks on the crossing's north side or you can experience the madness for yourself, which in my opinion is far better. My husband and I crossed quite a few times here just for fun and not one single time did we bump into another person or people bumped into us. Everybody matched their peace at the speed of the person in front, walking at unison, on lanes. Now if this is not the ultimate example of civilization, I don't know what is.

Meiji Shrine (traditional Tokyo)

Meiji Shrine is a Shinto shrine located in the Shibuya Ward, in the middle of a beautiful forest with huge Torii gates leading to the main hall and it is accessible from the Harajuku Station on the JR Yamanote Line. Dedicated to the deified spirits of Emperor Meiji and his wife, it is now a favorite place for wedding ceremonies.

We were lucky to witness such a procession. Led by two shrine priests and two shrine maidens, the couple followed under a big red umbrella. Family and friends came next, but we were surprised by both the reduced numbers of participants and by the lack of joy on their faces. Apparently Shinto wedding ceremonies are very solemn and quite unique.

Also there were lots of worshipers ruminating around the shrine's grounds, and many of the ladies and young girls were dressed in gorgeous kimonos. As opposed to the nearby Yoyogi Park, Meiji Shrine is the place to go contemplate the old Japan and Japanese traditions.

Yoyogi Park on a Sunday

There is no better place for people watching in Tokyo than the Yoyogi Park. The park is very popular with young Japanese people, especially on Sundays, and you can spot the unleashed wackiness of an otherwise reserved nation.

We spotted from shy Lolitas and classy girls drinking red wine from crystal glasses while seated on a picnic cloth, to couples in love, club meetings, teenagers rehearsing plays, and homeless people giving a ride to their cats in supermarket trolleys. Everything goes and nobody feels out of place.

The park is pretty huge and doesn't give the feeling of being crowded at all, but then again, this is part of a special Japanese talent - in spite of Tokyo being the world's most populous metropolis, we never felt overwhelmed by the number of people around us.

Методические рекомендации, определяющие процедуры оценивания результатов освоения дисциплины

Промежуточная аттестация студентов. Промежуточная аттестация студентов по дисциплине «Иностранный язык» проводится в соответствии с локальными нормативными актами ДВФУ и является обязательной. Промежуточный контроль проводится в виде зачета/экзамена по семестрам. Объектом контроля являются коммуникативные умения во всех видах речевой деятельности (аудирование, говорение, чтение, письмо), ограниченные тематикой и проблематикой изучаемых разделов курса. Итоговый контроль проводится в виде выпускного экзамена за весь курс обучения иностранному языку. Объектом контроля является достижение заданного Программой уровня владения иноязычной коммуникативной

компетенцией (Основного/Повышенного).

Текущая аттестация студентов. Текущая аттестация студентов по дисциплине «Иностранный язык» проводится в соответствии с локальными нормативными актами ДВФУ и является обязательной.

Текущая аттестация по дисциплине «Иностранный язык» проводится в форме контрольных мероприятий (устных опросов, выполнения контрольных работ, тестирования, выполнение заданий в рабочей тетради) по оцениванию фактических результатов обучения студентов и осуществляется ведущим преподавателем.

Объектами оценивания выступают:

- учебная дисциплина (активность на занятиях, своевременность выполнения различных видов заданий, посещаемость всех видов занятий по аттестуемой дисциплине);
- степень усвоения теоретических знаний;
- уровень овладения практическими умениями и навыками по всем видам учебной работы;
- результаты самостоятельной работы.

Основными целями обучения иностранным языкам в неязыковом вузе является формирование/совершенствование иноязычных коммуникативных умений студентов на двух уровнях:

Основном (A1 - A2+) и Повышенном (A2+ - B1+) в зависимости от исходного уровня иноязычной коммуникативной компетенции студентов. Исходя из этого, в качестве требований,

предъявляемых к студенту по окончании курса обучения иностранному языку, выдвигаются требования владения именно коммуникативными умениями. При этом минимально-достаточные требования ограничиваются рамками Основного уровня. Таким образом, по окончании курса обучения иностранному языку в неязыковом вузе обучающиеся должны уметь в рамках обозначенной проблематики общения:

- в области аудирования:

воспринимать на слух и понимать основное содержание несложных аутентичных общественно-политических, публицистических (медийных) и прагматических текстов, относящихся к различным типам речи (сообщение, рассказ), а также выделять в них значимую/запрашиваемую информацию - в области чтения:

понимать основное содержание несложных аутентичных общественнополитических, публицистических прагматических И текстов (информационных буклетов, брошюр/проспектов), научно-популярных и научных текстов, блогов/веб-сайтов; детально понимать общественнополитические, публицистические (медийные) тексты, а также письма личного характера; выделять значимую/запрашиваемую информацию из справочно-информационного прагматических текстов И рекламного характера

- в области говорения:

начинать, вести/поддерживать и заканчивать диалог-расспрос об увиденном, прочитанном, диалог-обмен мнениями и диалог-интервью/собеседование при приеме на работу, соблюдая нормы речевого этикета, при необходимости используя стратегии восстановления сбоя в процессе коммуникации (переспрос, перефразирование и др.); расспрашивать собеседника, задавать вопросы и отвечать на них, высказывать свое мнение, просьбу, отвечать на предложение собеседника (принятие предложения или отказ); делать сообщения и выстраивать монолог-описание, монолог-повествование и монолог-рассуждение

- в области письма:

Заполнять формуляры и бланки прагматического характера; вести запись основных мыслей и фактов (из аудиотекстов и текстов для чтения), а также запись тезисов устного выступления/письменного доклада по изучаемой проблематике; поддерживать контакты при помощи электронной почты (писать электронные письма личного характера); оформлять Curriculum

Vitae/Resume и сопроводительное письмо, необходимые при приеме на работу, выполнять письменные проектные задания (письменное оформление презентаций, информационных буклетов, рекламных листовок, коллажей, постеров, стенных газет и т.д.

Критерии выставления оценки студенту на зачете/ экзамене по дисциплине «Иностранный язык»:

Баллы (рейтинго вой оценки)	Оценка зачета/ экзамена (стандартна я)	Требования к сформированным компетенциям
100-86	«зачтено»/ «отлично»	Оценка «отлично» выставляется студенту, если он глубоко и прочно усвоил программный материал, исчерпывающе, последовательно, четко и логически стройно его излагает, умеет тесно увязывать теорию с практикой, свободно справляется с задачами, вопросами и другими видами применения знаний, причем не затрудняется с ответом при видоизменении заданий, использует в ответе материал монографической литературы, правильно обосновывает принятое решение, владеет разносторонними навыками и приемами выполнения практических задач.
85-76	«зачтено»/ «хорошо»	Оценка «хорошо» выставляется студенту, если он твердо знает материал, грамотно и по существу излагает его, не допуская существенных неточностей в ответе на вопрос, правильно применяет теоретические положения при решении практических вопросов и задач, владеет необходимыми навыками и приемами их выполнения.
75-61	«зачтено»/ «удовлетвори тельно»	Оценка «удовлетворительно» выставляется студенту, если он имеет знания только основного материала, но не усвоил его деталей, допускает неточности, недостаточно правильные формулировки, нарушения логической последовательности в изложении программного материала, испытывает затруднения при выполнении практических работ.

		Оценка «неудовлетворительно» выставляется студенту,
60.70		который не знает значительной части программного
60-50	«не зачтено»/	материала, допускает существенные ошибки, неуверенно,
	«не зачтено»/ «неудовлетвор ительно»	с большими затруднениями выполняет практические
		работы. Как правило, оценка «неудовлетворительно»
		ставится студентам, которые не могут продолжить
		обучение без дополнительных занятий по
		соответствующей дисциплине.

Критерии оценки (письменный ответ)

✓ 100-86 баллов - если ответ показывает глубокое и систематическое знание всего программного материала и структуры конкретного вопроса, а также основного содержания и новаций лекционного курса по сравнению с учебной литературой. Студент демонстрирует отчетливое и свободное владение концептуально-понятийным аппаратом, научным языком и терминологией соответствующей научной области. Знание основной литературы и знакомство с дополнительно рекомендованной литературой. Логически корректное и убедительное изложение ответа.

✓ 85-76 - баллов - знание узловых проблем программы и основного содержания лекционного курса; умение пользоваться концептуальнопонятийным аппаратом в процессе анализа основных проблем в рамках данной темы; знание важнейших работ из списка рекомендованной литературы. В целом логически корректное, но не всегда точное и аргументированное изложение ответа.

✓ 75-61 - балл — фрагментарные, поверхностные знания важнейших разделов программы и содержания лекционного курса; затруднения с использованием научно-понятийного аппарата и терминологии учебной дисциплины; неполное знакомство с рекомендованной литературой; частичные затруднения с выполнением предусмотренных программой заданий; стремление логически определенно и последовательно изложить ответ.

✓ 60-50 баллов — незнание, либо отрывочное представление о данной проблеме в рамках учебно-программного материала; неумение использовать понятийный аппарат; отсутствие логической связи в ответе.

Критерии оценки (устный ответ)

- ✓ 100-85 баллов если ответ показывает прочные знания основных процессов изучаемой предметной области, отличается глубиной и полнотой раскрытия темы; владение терминологическим аппаратом; умение объяснять сущность, явлений, процессов, событий, делать выводы и обобщения, давать аргументированные ответы, приводить примеры; свободное владение монологической речью, логичность и последовательность ответа; умение приводить примеры современных проблем изучаемой области.
- ✓ 85-76 баллов ответ, обнаруживающий прочные знания основных процессов изучаемой предметной области, отличается глубиной и полнотой раскрытия темы; владение терминологическим аппаратом; умение объяснять сущность, явлений, процессов, событий, делать выводы и обобщения, давать аргументированные ответы, приводить примеры; свободное владение монологической речью, логичность и последовательность ответа. Однако допускается одна две неточности в ответе.
- ✓ 75-61 балл оценивается ответ, свидетельствующий в основном о знании процессов изучаемой предметной области, отличающийся недостаточной глубиной и полнотой раскрытия темы; знанием основных вопросов теории; слабо сформированными навыками анализа явлений, процессов, недостаточным умением давать аргументированные ответы и приводить примеры; недостаточно свободным владением монологической речью, логичностью и последовательностью ответа. Допускается несколько ошибок в содержании ответа; неумение привести пример развития ситуации, провести связь с другими аспектами изучаемой области.

Text A

MY FAMILY

Hi! My name is Thomas (though my friends call me Tom). I'm fifteen. I've got a Mum, a Dad, a brother and two sisters, three aunts and uncles and two grandmothers who live in New Zealand. I'm the youngest. It is pretty dire at times when my alder sisters and brother try to boss me around, but sometimes it's OK because I get away with doing things with them — like going off up to London for the day, staying up really late to watch videos and going off to the pub for a drink (cola, of course, because I'm not 18 yet). I think there are some advantages of being the youngest. I can learn from my sisters' and brother's mistakes, and they've fought some of the battles with my parents for freedom.

My eldest brother Mark is 20 and is studying at the university in York. My sister Laura is 18 and in her last year at school. She is doing Biology, Chemistry, Math and Further Math "A" levels. She wants to become a doctor.

Liz is my other sister. She is 16. My sister Liz was born lucky. She has a beautiful smile. When she does something bad, she smiles and my parents are not angry with her. She eats a lot and does not get fat. Her favorite meal is a double cheeseburger with French fries, a milkshake, and an ice cream sundae. She does not study hard but always gets good marks. After school she does her homework in five minutes while she watches television at the same time.

I'm close to all three but possibly closest to Liz. She sometimes comes to me for advice and I sometimes go to her. But I would have liked to have a younger brother. I'd have liked to have someone to have a laugh with, someone to take out to football with me. My sisters and Mark don't always share my sense of humor.

My Dad is a civil servant and works in central London. Mum is a teacher and works in Croydon, a town on the outskirts of London.

If I go out, my parents like to know where I'm going, who I'm with and what time I'm coming home, but that's fair enough.

Of all my relatives best of all I like my Granny Dotty. She loves adventure. On her sixtieth birthday she went mountain climbing in the Alps. On her seventieth birthday she went on a trip to the North Pole. When she was eighty, she drove, alone, across the United States. She loves to eat chocolate. We all wonder what she will do when she is ninety.

MY WORKING DAY

On week days the alarm-clock wakes me up and my working day begins. It is seven o'clock. If it is spring or summer I jump out of bed, run to the window and open it wide to let the fresh morning air in. In winter I am not so quick to leave my bed, and I bury my head under the pillows pretending not to hear the alarm-clock. But all the same, it is time to get up and I start getting ready for my work.

I make my bed and go to the bathroom where I brush my teeth and have a shower. While I am having breakfast, I turn on my taperecorder and listen to pop-music. Breakfast, as my parents say, must be the most substantial meal of the day. But usually neither my mother nor me have any time to cook it, so I just have a cup of tea or coffee and some sandwiches. I leave my house at ten minutes to eight, and, as I live quite near the bus stop, I am there in five minutes. It takes me about twenty minutes to get to school. I arrive at school at a quarter

past eight. On my way to school I often meet my classmates and we go school together.

Our lessons start at half past eight. We usually have seven or even eight lessons a day. It is not easy to study at our school, but it is reputed to be the best in our region. My working day is not over even when the lessons come to the end, because I have a lot of work to do at home. It usually takes me about three hours to get ready for the next working day at school. But when at last my working day is over I feel both tired and satisfied.

Sometimes in the evening my friends come to my place and we talk or play; sometimes we go for a walk, but not very often. I go to bed at about eleven o'clock.

Assignment:

Study the contexts in which the words given below are used: bathroom, substantial, bus stop, classmates, region, satisfied.

Shorten the second paragraph. Make each sentence as short as you can.

Give the information about your own working day.

DOMESTIC CHORES

A comfortable home makes our everyday life and work easier and more pleasant. And what should you do to make your home comfortable? Perhaps the first thing is to keep it clean and tidy. If you haven't done your room, your mother may say to you, "Go and do your room!"

Domestic chores are numerous. You must air the room, wash or sweep the floor, clean the table after meals. What else can you do about the house? You can polish the floor or the furniture, clean the carpets with the vacuum-cleaner.

Most of the cooking in your family is probably done by your mother or grandmother, but you can help them by laying the table and cleaning it after meals, and washing the dishes up.

On washing – day you can also help your mother. If your washing is sent to the laundry, you can take it there and fetch it when it's ready.

If you have pets at home, you must take care of them.

Here are teenagers' opinions on their attitude to domestic chores.

"I get some week pocket money, but most of my friends get much more. When I ask my Mum and Dad for more, they say I can have more if I help in the house, but I don't see why I should. I think it's not fair. Mum's at home all day, and it's her job to look after the house, not mine. What do you think?"

"On Fridays I usually clean my room which is in terrible mess by the end of a week. It is awfully boring, but it's my duty."

"If you have a dog, it's usually great fun, but you have to take him for a walk twice a day. Besides you have to wash him sometimes. I have pets that are exotic, but easy to keep. They are insects. I feed my insects on leaves which I get in my garden. They are always clean, and I don't have to take them for a walk!"

Assignment:

Answer the following questions:

- 1) Do you have any chores at home?
- 2) Who usually does your room? When do you do it?
- 3) Do you have a pet at home? Who takes care of it?
- 4) Who usually cooks in your family? Can you make something to eat if your mother is not at home?
- 5) Do you have younger brother or sisters at home? What do you do to help your mother with them?

MY LEISURE TIME

There's plenty to do after school hours, particularly sport which I enjoy most. My favorite sport is hockey. Almost all my friends are here. We train hard and we play for the school and in various regional youth tournaments.

As most young people I spend my after school hours at home watching TV, or doing domestic chores, or listening to music, or reading. We don't have a computer at home, so I spend a considerable time playing computer games at my friend's. Of course, all these I do when there are no training spells.

I think, it's common with most young people to spend some time outdoors. Street life is important for us. We meet somewhere in streets and talk and then go to town centre to do window shopping and 'see what's going on'.

My friends use some of their spare time to earn money by working in different places. Some of them wash cars for people, others do a part-time job for shops and cafes. As for me I earn my pocket money delivering newspapers three times a week.

I've usually got enough to do the things I want. I can buy the records and CDs I want without asking the permission from my parents.

MY PLANS FOR THE FUTURE

'What do you want to be after finishing school?' – I have often heard this question. Sometimes it is difficult to answer this question, sometimes not. Little children usually dream of having an extremely unusual profession. Some of them want to become spacemen, others want to discover new lands, yet others-to dive in deep seas. But most of them want to be famous, so they usually want to become a star – a film star, a pop star, a football star and so on. I used to dream of being a film star as well, but changed my mind as the years passed.

There are always some young people who know very well what they are going to do after school. They can tell you lots of interesting things about their future profession and what college or university they should graduate from to get the specialty they've chosen. I think I'm one of them.

So, I want to be a doctor. At the age of 11 I read books about doctors. It was so exciting. Then I was lucky to meet a wonderful surgeon who operated on me. I was deeply impressed. Since then I've been trying to learn as much as possible about this profession, and now I often think about how well I will fit with it. That's why I am always interested in young people's plans for the future and ask them what they are going to do in life. I have found out different people are interested in absolutely different fields of activities. You have an opportunity to assure yourself of it reading the notes below.

Angela Duffy is a schoolgirl from Brighton. She also wants to be a doctor. She is going to medical school next year. It's a long course – about six years – but she is going to work very hard. She thinks that it's a difficult job, but she likes working with people, and she likes the idea of working in a caring profession. She says that later she would like to specialize and perhaps be a pediatrician. "I love children, and looking after them would be wonderful."

Deena Patel is doing Biology, Chemistry, Math and Further Math "A" levels and will sit the exams next summer. "I'd like to train as a dentist when I've finished college. I want to do something medically orientated and decided in favor of dentistry because there aren't so many years studying as there are to become a doctor."

Steve Barnes wants to be a chef. His favorite room in the house is the kitchen, where he spends most of the day. "I love cooking, especially for lots of people. I have over a hundred cook books." He is going to work in a restaurant in Paris, where he hopes to learn how to prepare sauces. One day he'd like to have his own restaurant.

Pippa Wilson is studying marketing at university. She enjoys travelling, and would probably like to work for a tour company. "I'm not sure yet exactly what I want to do. After university, I'm going to have a year off, and I'm going round the world with another girl. We hope to find work on the way."

Nick Watson doesn't know for certain what he will do. He says: "I think the best way to prepare myself for a future job is to get a good education. Jobs are changing and new ones are constantly appearing. In a few years, there will be many more new jobs and nobody knows what they will be. But good education cannot solve the problem alone. It is important to have good health to face difficulties and changes. That's why I pay great attention to sports."

Assignment:

Answer the following questions:

- 1) What field would you like to work in?
- 2) What do you know about your future profession?
- 3) Is this profession new or old?
- 4) What do you need to get this profession?
- 5) Is education or training necessary to be successful in life?

CAREERS

Careers do not just happen. People train for them. How much training is needed depends on the kind of career chosen. Some jobs take only a few months of training. Others take several years. Certain careers need college or university graduation. There is a song that says, "People who like people are the luckiest people in the world." So the people who feel like this might like a job that deals with people all the time. It may be hotel or restaurant management, or tourists business. Or maybe a career that helps (to) keep people healthy in mind and body.

ECOLOGISTS

There are some kinds of jobs that deal with the environment we live in. Ecologists, for example, study how living things and the environment are related. They find ways for us to reduce pollution. They tell us which things are harmful either to ourselves or to the plants and animals we depend on for food.

SMALL BUSINESS

There are many different kinds of jobs in a small business. A business must have an owner who makes decisions about the way the business is run. Also two or more people could be responsible for the business and form of partnership. The owner needs other people to help run the store. A clerk helps people find what they want in the

store. A stock clerk orders and takes care of the products that the store sells. A bookkeeper or accountant keeps records of sales and expenses.

JOURNALISTS

A person who has a job writing about the news is called a journalist. Journalists work on newspapers and magazines or at radio and television stations. Some journalists have university degrees. Others receive their experience by working at a newspaper office or at a television station. Some journalists write stories about news events that happen anywhere in the world. Others write about sports, entertainment, or business. Journalists must first find the facts before they write news, articles. To gather their facts they ask people questions, use reference works, and observe news stories as they happen. If you are interested in a career in journalism, you should begin with a school newspaper or a club magazine.

NURSES

Nurses help people keep healthy. They also help people get well when they are sick. Schools, factories, and many offices have nurses. These nurses give first aid when someone is hurt or sick. They also do things to prevent illness. One of these is to give shorts. Another thing nurses do is to take blood pressure. In hospitals, nurses take care of sick people. They assist the doctor in the operating rooms. People who want to be nurses study science in school.

DIETICIANS

People need food for growth and energy. Well-balanced meals help keep people healthy. Dieticians plan meals. They work in hospitals and schools. They make sure that each meal includes food from different groups and is rich enough in vitamins.

Dieticians go to college to study about food. They must know all about four food groups and about the vitamins in food that keep bones, teeth, and skin healthy.

DENTISTS

Teeth are important to people. Without them, eating is hard. People who lose their teeth may have false teeth made. Dentists and their assistants are people who help others to take care of teeth. In their jobs, they try to help others. A person who wants to become a dentist goes to a special medical college.

GEOLOGISTS

Geologists are scientists who study the Earth. They learn how rocks, mountains, and rivers are formed. They know that these things are still forming today. Geologists help to find mineral deposits, such as gold and copper. They also help to find oil and gas. Geologists study science. If you like to work outdoors, you may want to be a geologist.

Assignment:

Find proofs in the text to support the following statement: "How much training is needed depends on the kind of career chosen".

Translate the following word combinations and use them in situations or sentences of your own:

to keep people healthy; to take care of the products; to have university degree; to receive one's experience; to prevent illness; to find mineral deposits; to work outdoors.

MY HOLIDAYS WITH PARENTS

Rafting has become my favorite pastime on holidays. My parents first hesitated to take me with them but after a while they agreed that it would be more safe to take me there than to leave me at home. And I would say they were rather wise with their decision. So we set out. After an hour flight, we got straight on a shabby, slow bus with rafting and camping equipment that took us to the starting point. When we arrived at the place, it was a dark night, and the black sky looked like a map of the constellations. As the reward for the day-long journey there were shooting stars we could watch. So we could make any wish at the moment.

We camped that night by the river that rolled with a constant thunder. We spent the next day checking our things and preparing our 'katarafty'. It's a type of the improved catamaran with two long inflated hulls fastened together with a light metal frame. All our belongings were packed in large waterproof bags. During the trip they were tied to the frame in the middle of the boat.

I was excited and a bit nervous. But I fell asleep at last and woke at dawn. We had to start early. We had breakfast, packed up tents, and tied everything down.

Then we started. The first few kilometers were easy. Two of us paddled on each side of the katarafty.

When the river went faster, I felt my heart going crazy. We approached the first rapid. My dad, who had been singing and joking all the way, now changed his tune. He yelled, "Khoood!" and we started to paddle fiercely. At the point when the katarafty came down from the top of an enormous wave, I felt like I was sailing in an ocean. After the rapids came stretches of calmer water, and we rowed lazily. My mum always paid our attention to picturesque views of the

forests and rock formations. We saw a few snow-capped peaks in the distance. After three hours of rowing, when everybody was freezing cold, we stopped for a meal. We quickly made a fire so our mum could cook food and we all could dry our clothes.

On one of our later stops, we met a group of travelers whose rubber raft had overturned when passing through a rapid. With their teeth chattering from the cold, they told us a story of another unfortunate team that had all its equipment and food sunk so they were forced to eat snakes until they were found by a local herder.

There were two more days I remembered and enjoyed very much. One of them was the day we spent in a picturesque spot near a village relaxing and enjoying the last days of summer. After we got up in the morning, we climbed a nearby mountain that was covered with pine and birch trees and looked like the head of a bear. We ate red currants and cherries from the trees growing alongside a spring and picked mushrooms. As we were promised, we were shown the legendary edelweiss, which turned out to be a small, unremarkable greenish white flower.

And the last day of our trip, our seven-day trip was coming to its end. That day we spent exploring caves and waterfalls. We entered at the bottom of the mountain and climbed in spirals through the stalactite and stalagmite adorned grottoes to the exit of the top. We ended the outing standing in awe behind a 6-metre-high waterfall.

Now I can see my parents and their friends are not so dull and boring people. And though I'm not going to spend all my holiday with them I admit they've given me a lot and shown me a very nice way of relaxing.
